

Letter for Gas Re-Instatement

I have visited and inspected the property located at _____
Address

On _____ for the Re-Instatement of the Gas Service.
Date

I have inspected the gas piping system, as well as the connected appliances.

I have also inspected the piping and venting of the appliances in the following locations:

Crawlspace **Basement** **Attic** **Interior of Structure** (Check all that apply)

I have observed that the appliances are vented in accordance with the International Codes.

I have also observed that the proper make up / combustion air, shut off valves, sediment traps, regulators and clearance to combustibles are in place in accordance with the International Codes.

I can further attest that to the best of my professional knowledge and judgment that the building that is located at this address is safe to have the gas service restored.

Prior to calling in for an Inspection, I have installed a pressure test and verified that there are smoke and carbon detectors located in their proper locations in the home.
