

Letter for Power Re-Instatement

I have visited and inspected the property located at _____
Address

On _____ for the Re-Instatement of the Electrical Service.
Date

I have inspected the point of entrance for the service, as well as the weather head, service entrance wires, meter(s), panel(s) and the grounding of the electrical system.

I have checked that all outlets, panel(s) and meter(s) have their safe guards installed.

I have also inspected the wiring that is located in the:

Crawlspace **Basement** **Attic** (Check all that apply)

I have observed that all wiring in these locations are in good condition, and they are the correct type and sizes for their use.

I have also observed that and verified that there are smoke detectors located in their proper locations in the home.

I can further attest that to the best of my professional knowledge and judgment that the building that is located at this address is safe to have the power restored.
